TITLE: ***Learn and Track*** – Organize tasks, track grades, create quizzes

Problem Statement:

Students nowadays have a hard time keeping track of their deadlines, tasks, and grades despite platforms such as google drive, sheets, or google chats being available.

- a) **It's too complex:** These platforms are overwhelming, and are filled with unnecessary features.
- b) **They are all scattered:** Despite them all being under google workspace, they are still spread across multiple platforms, causing confusion.
